The 25th Annual International Symposium on
COMPUTER ARCHITECTURE

ISCA '98

Barcelona, Spain
June 29-July 1, 1998

Sponsored by **IEEE TCCA** Φ and **ACM SIGARCH** acm

In cooperation with UPC (Universitat Politecnica de Catalunya)

Important Dates:

Submission: NOV 17   Acceptance: FEB 9   Final version: MAR 16

Steering Committee
Arvind, MIT
Jean-Loup Baer, Washington
John Gurd, Manchester
John Hennessy, Stanford
Trevor Mudge, Michigan
Yale Patt, Michigan
Jim Smith, Wisconsin

General Chair
Mateo Valero
Dept. de Arquitectura de Computadores
Universidad Politecnica de Catalunya
c/ Jordi Girona, 1-3 Modulo D6
08034 Barcelona, Spain
Phone: +34 3 401 6979
Fax: +34 3 401 7055
mateo@ac.upc.es

Program Chair
Guri Sohi
Computer Sciences Dept.
University of Wisconsin
1210 W. Dayton Street
Madison, Wisconsin 53705
Phone: (608)-262-7985
FAX: (608)-262-9777
isca98@cs.wisc.edu

Tutorials Chair
Tom Conte, NC State
conte@eos.ncsu.edu

Workshops Chair
Josep Torrellas, Illinois
torrella@cs.uiuc.edu

Publicity & Publications Chair
Jose Fortes, Purdue

Finance Chair
Miquel Huguet, CESCA

Student Travel Grants
Alan Berenbaum, Bell Labs

Local Arrangements Chairs:
Conference
Eduard Ayguade, UPC

Workshops and Tutorials
Antonio Gonzalez, UPC

Accommodation and Social Events
Josep L. Larriba, UPC

Program Committee
See Web site for information.

This is the *25th anniversary* of the International Symposium on Computer Architecture, the premier venue for presenting research in computer architecture. Papers are being solicited on all aspects of computer architecture, including (but not limited to) the following:

- Memory systems
- I/O systems and architecture
- Impact of technology on architecture
- Performance evaluation and measurement
- Novel architectures and computing techniques
- Instruction-level parallel processors
- Multiprocessors, multicomputers, and distributed architectures
- Architectural implications of application characteristics
- Language and operating systems support
- Application-specific architectures
- Massively parallel architectures
- Non-numeric architectures

The **DEADLINE** for submissions is 9AM CST (US) or 1500 GMT on **NOVEMBER 17, 1997.** Authors will be granted an automatic extension of up to one week (168 hours) without making a special request; no further extensions will be granted.

Please submit one electronic copy of your paper (in postscript format), approximately 6000 words, using the submission instructions provided on the ftp/WWW site listed at the end of this document. *In order to minimize problems with your electronic submissions please ensure your postscript file can be previewed by ghostview.* Contact the Program Chair if you need any help with the electronic submission procedure. **Excessively long papers will be reviewed at the discretion of the Program Chair and/or the reviewers.**

Papers will be reviewed blind, and will be judged on their scientific merit and anticipated interest to conference attendees. Papers dealing with promising novel ideas that may not have reached the same level of maturity as papers dealing with more well-established concepts are especially encouraged. For purposes of review, it is understood that such papers are likely to contain less quantitative evaluations and comparisons than papers dealing with more well-established concepts. Notification of acceptance will occur by **FEBRUARY 9, 1998** and the camera ready copy of the accepted papers will be due on **MARCH 16, 1998.**

A series of tutorials and workshops will be held immediately preceding and/or following the symposium. Tutorial and workshop proposals will be accepted until **JANUARY 5, 1998.** If you wish to organize a tutorial (1/2 or full day), please send to the Tutorials Chair an electronic version of a detailed proposal, including tutorial title, outline, brief description of topics to be covered, intended audience, assumed attendee background, and the name(s), affiliation(s), and resume(s) of the speaker(s). If you wish to organize a workshop (one or two days), please send to the Workshops Chair an electronic version of a detailed proposal, including workshop title, overview, intended audience, projected attendance, duration, list of invited participants, and name(s) and affiliation(s) of the organizer(s).

This and other conference information is available via anonymous ftp from **ftp.cs.wisc.edu:/ISCA98**, *and on the World Wide Web at the mirrored Web sites:* **http://www.cs.wisc.edu/~isca98,   http://www.ac.upc.es/ISCA98/,   http://shay.ecn.purdue.edu/~isca98.**
